AMENDED SPECIFICATION PARAGRAPH

Please replace the paragraph starting at line 7 on page 3 with the following amended paragraph:

The conventional hot technique of installing tensioned ceilings gives rise, a priori, to severe difficulties if the ceilings are printed. These difficulties are mentioned in document WO-A-99/43906 WO-A-99/43907 (page 1, lines 25-30): tensioning such sheets after they have been printed can lead to images becoming distorted.
